

Company Profile

IS2 LLC, a Texas-licensed Electrical Contractor, specializes in providing exceptional civil and electrical construction solutions. Our focus on advancing infrastructure in a sustainable and innovative way is a testament to our understanding and value for the evolving needs of the telecommunications, commercial, and industrial sectors.

Our leadership team comprises Project Management Professionals in various engineering and construction management branches with extensive experience in project control and execution. IS2 LLC is a company that thrives on a process-oriented approach. This allows us to meticulously identify and address client-specific needs and requirements, ensuring that we not only meet but exceed their service expectations.
